Fixture C — Multi-page Layout [C-003]

Cover page. The first page has its own header. [C-004]

Chapter 1 [C-005]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-006]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-007]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-008]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-009]

Chapter 2 [C-010]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-011]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-012]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-013]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-014]

Chapter 3 [C-015]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-016]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-017]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-018]

Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. Prime Word must preserve the meaning and structure of professional documents through every import, edit and export, without silently losing any content. Reliable editing builds the trust that every later feature depends on. [C-019]

Table in a paginated document [C-020]

Page element [C-021]	Expected [C-022]	Notes [C-023]
Element 1 [C-024]	Preserved [C-025]	Check visually [C-026]
Element 2 [C-027]	Preserved [C-028]	Check visually [C-029]
Element 3 [C-030]	Preserved [C-031]	Check visually [C-032]
Element 4 [C-033]	Preserved [C-034]	Check visually [C-035]
Element 5 [C-036]	Preserved [C-037]	Check visually [C-038]

Landscape section [C-040]

This section is landscape with its own header and footer. [C-041]
